

SMK-Link Computer Peripherals

Brand Description

SMK-Link computer peripherals, from SMK Electronics Corporation, U.S.A., include industry-acclaimed presentation products, USB-C peripherals and computer input devices. Products include the award-winning RemotePoint® Presenters: the industry standard in PowerPoint® controls for more than 25 years.

- **Presentation Products**

- **RemotePoint Presentation Remotes** control presentations from anywhere in the room—enabling the dynamic, interactive presentation style used by business leaders, educators and presenters worldwide.
- **Presentation Speakers** Be heard clearly by everyone in the room with the GoSpeak!® Duet Ultra-Portable Amplification System. Weighing less than 5 pounds, GoSpeak! carries in a tote bag and sets up in minutes. Now available with integrated wireless lapel and handheld microphones.
- **Lose your projector Remote Control?** Not a problem. Simply replace it with the SMK-Link Universal Projector Remote. *It's that easy.*

- **USB-C Peripherals**

- **USB-C Laptop Hubs** *Have a laptop outfitted with just USB-C ports?* The USB-C Multi-Port Hub has your back, providing the power of a desktop docking station in an ultra-portable size.
- **USB-C Charging Cables** The USB-C MagTech™ Charging Cable (a braided Space Gray 6.5' cable with magnetic 'MagTech' USB-C Charging Tip) makes it easy to quickly charge your USB-C laptop and supported devices.

- **Computer Input Devices**

- The RemotePoint Wireless Presentation Suite pairs SMK-Link's new Rechargeable Media Keyboard with RemotePoint Jade—a professional Presentation Remote Control with mouse pointing, a bright green laser pointer, and a 150' wireless range.
